PROFESSIONAL SUMMARY

Data-driven professional and supervisor with proven expertise in leading process optimization, enterprise automation, and digital transformation. Expert at architecting end-to-end technical solutions using Smartsheet, SharePoint, and AI-driven tools (Copilot Studio) to eliminate administrative bottlenecks and enhance operational oversight. Combines a strong background in high-volume manufacturing engineering with a modern, data-led approach to project management, governance, and organizational intelligence.

CORE COMPETENCIES

Strategic Leadership	Project Governance · Process Ownership · Change Management · Team Leadership
Process Automation	Smartsheet (P.R.I.M.E Framework, Automation, Workflows) · Logic-based Routing
AI & Knowledge Mgmt	Microsoft Copilot Studio · SharePoint Development · AI Chatbot Integration
Data Analytics	Advanced Excel (Power Pivot, Power Query, Pivot Tables) · Power BI · Dashboard Design
Engineering & Quality	ISO 9001/14001 · Six Sigma Green Belt Project · Machine Qualification · RCA / FMEA

PROFESSIONAL EXPERIENCE

Data Analytics Specialist

Dec 2025 – Present

Filinvest Alabang Inc. (FAI) — Strategy & Innovation Group | Alabang, Muntinlupa

Functioning in a supervisory capacity, bridging operational teams and technical system architecture while managing enterprise-wide automation lifecycle.

- **Team Leadership & System Architecture:** Lead the design, documentation, and deployment of complex automation frameworks including P.R.I.M.E, CRD Turnover Monitoring, and RFP approval systems.
- **AI & Knowledge Management Integration:** Spearheaded the development of the AFAIK Knowledge Base, architecting site layout and logic, and managing AI chat agent integration via Copilot Studio for MS Teams.
- **Operational Performance Oversight:** Direct the design of real-time management dashboards that translate operational data into strategic insights for proactive decision-making.

Manufacturing Engineer

Mar 2024 – Nov 2025

Yokowo Manufacturing of the Philippines Inc. | Hermosa Ecozone Industrial Park, Bataan

- Lead KAIZEN initiatives to improve operational efficiency and reduce waste.
- Spearhead process troubleshooting to minimize downtime.
- Conduct ISO 9001 & ISO 14001 internal audits.
- Oversee machine qualification and calibration for production readiness.

Inari Amertron Inc. | Clark Special Economic Zone, Pampanga

- Delivered \$2,470/month cost savings by reducing LC cable defects by 50% (520 → 260 units).
- Led Six Sigma Green Belt project using ANOVA, t-tests, and I-MR charts.
- Qualified new materials and substitute components for production.
- Trained operators and technicians on updated process standards; revised work instructions and conducted internal audits.
- Utilized Excel Power Query and Pivot Tables to analyze defect trends, enabling data-driven corrective actions.

PROJECT PORTFOLIO

AFAIK Knowledge Base & AI Chatbot | *Filinvest Alabang Inc.*

Designed the SharePoint Knowledge Base architecture and integrated an AI-driven chat agent via Microsoft Copilot Studio, delivering instant organizational support across MS Teams.

P.R.I.M.E — Project Readiness & Intelligent Monitor Engine | *Filinvest Alabang Inc.*

Developed a standardized project monitoring framework with multi-level workflow reminders and an automated escalation engine to route delayed tasks to leadership.

CRD Turnover Monitoring & Automation System | *Filinvest Alabang Inc.*

Engineered a Smartsheet-based system to manage real estate unit turnover, including automated contact assignment, timed escalation for repair deadlines, and a closed-loop recommitment workflow.

Sales Table of Organization Automation | *Filinvest Alabang Inc.*

Centralized seller and team structure records into a master Excel source, with automated org chart generation via Power BI — eliminating manual PowerPoint updates and ensuring real-time hierarchy visibility.

Credit Card Automation | *Filinvest Alabang Inc.*

Built a Smartsheet/Excel-based credit card expense reconciliation system with automated Facebook and non-Facebook ad-spend calculators, replacing manual transcription and cutting manual data entry time by 100%.

RFP Approval Automation | *Filinvest Alabang Inc.*

Architected a digital RFP approval routing platform to replace manual handoffs, achieving a 50% reduction in RFP approval turnaround time.

Exit Interview Digitalization & Analytics | *Filinvest Alabang Inc.*

Engineered a Smartsheet-based exit interview system with automated interviewer routing, auto-generated fillable PDF records, and an analytics dashboard surfacing resignation trends, tenure, and attrition drivers.

Terminal Applicator X-bar & R Chart Automation | *Yokowo Manufacturing of the Philippines Inc.*

Built an Excel macro-driven system that auto-populates and auto-maps terminal applicator data to generate X-bar & R charts in a single run. Processed, printed, and QA-approved 1,000+ charts across 253 terminal applicators.

Defective LC Cable Reduction - KAIZEN Technical (Six Sigma Green Belt Project) | *Inari Amertron Inc.*

Reduced monthly defects by 50% through root cause analysis and process optimization; doubled cable usage life from 1,200 to 2,400 insertions.

EDUCATION & CREDENTIALS

BS Electronics and Communication Engineering

Lyceum of Subic Bay - SBFZ, Zambales

Licensed Electronics Technician

PRC License No. 0024323

Six Sigma Yellow Belt & White Belt

MF Treinamentos
