

PROFILE

Data Analytics Specialist with an engineering and Six Sigma foundation. Designs and builds workflow automation, AI knowledge systems, and BI reporting across cross-functional teams at Filinvest Alabang Inc.

2 hr → 5 min Knowledge retrieval	3–12d → same-day PR submission time	100% Manual data entry eliminated	100% Org-chart updates automated
-------------------------------------	--	--------------------------------------	-------------------------------------

CORE CAPABILITIES

Process Transformation	Workflow Architecture · Process Digitalization · Governance
Automation & AI	Smartsheet · SharePoint · Copilot Studio · Power BI
Analytics & Engineering	Advanced Excel · Statistical Analysis · Six Sigma · RCA · KAIZEN

PROFESSIONAL EXPERIENCE

Data Analytics Specialist Dec 2025 – Present

Filinvest Alabang Inc. (FAI) — Strategy & Innovation Group | Alabang, Muntinlupa

- **AFAIK Knowledge Base & AI Chatbot — 2 hr → 5 min.** Architected the SharePoint knowledge base and integrated a Microsoft Copilot Studio AI agent into MS Teams, cutting document retrieval time.
- **CLEAR — CapEx Lifecycle & Expenditure Approval Routing.** Built Finance's role-based CAPEX budget workflow (PD Staff → PD Manager → Finance Manager sign-off) for the Budget & Strategic Finance team.
- **RFP Approval Automation & PR Form Digitalization.** Replaced manual handoffs in Finance's OPEX Monitoring & Control group with validated Smartsheet routing; PR submission time cut from 3–12 days to same-day.
- **P.R.I.M.E. — Project Readiness & Intelligent Monitor Engine; CRD Turnover Monitoring & Automation.** Built an enterprise project-monitoring framework with automated leadership escalation, and Customer Relations Department's turnover system replacing manual Excel tracking.
- **Sales Table of Organization Automation, CLIE & Credit Card Automation.** Automated Sales Support & Leasing's org-chart generation via Power BI (100% manual updates eliminated); built Project Development's CLIE (Customer Lifecycle Intelligence Engine) milestone tracker and Corporate Marketing's reconciliation system (100% manual entry eliminated).

Manufacturing Engineer Mar 2024 – Nov 2025

Yokowo Manufacturing of the Philippines Inc. | Hermosa Ecozone Industrial Park, Bataan

- **Terminal Applicator X-bar & R Automation.** Collaborated with the PD-Kaizen team on an Excel macro-driven system that auto-mapped data and generated charts; processed, printed, and QA-approved 1,000+ charts across 253 terminal applicator serial numbers.
- **KAIZEN & ISO Compliance.** Led KAIZEN initiatives to reduce waste; conducted ISO 9001 and ISO 14001 internal audits.
- **Process & Equipment Readiness.** Directed troubleshooting to minimize downtime; oversaw machine qualification and calibration.

Process Engineer Dec 2022 – Nov 2023

Inari Amertron Inc. | Clark Special Economic Zone, Pampanga

- **Six Sigma — Defective LC Cable Reduction (Green Belt project).** Reduced monthly defects 50% (520 → 260 units), delivering \$2,470/month in savings and doubling cable life from 1,200 → 2,400 insertions via RCA, ANOVA, t-tests, and I-MR analysis.
- **Material Qualification & Training.** Qualified new materials and substitute components; trained operators on revised process standards.
- **Data-Driven Corrective Action.** Used Excel Power Query and Pivot Tables to analyze defect trends.
